

CrumbleBlock::CrumbleBlock

```
graph LR; A[CrumbleBlock::CrumbleBlock] --> B["CountedItem< CrumbleBlock >::GetCount"]; A --> C[InteractableItem::InteractableItem]
```

The diagram illustrates the inheritance of methods for the `CrumbleBlock::CrumbleBlock` class. A central box on the left, labeled `CrumbleBlock::CrumbleBlock`, has two blue arrows pointing to two boxes on the right. The top box represents the `CountedItem` class template specialization, showing the `GetCount` method. The bottom box represents the `InteractableItem` class, showing its `InteractableItem` method.

CountedItem< CrumbleBlock
>::GetCount

InteractableItem::InteractableItem
